built-in IR switching

DIGI-HDMI-4X4

4 HDMI inputs
4 HDMI outputs & 4 twisted pair outputs
HDMI 1.3 & HDCP compliant
front panel, Ethernet, RS232 & IR control
built-in IR switching

DIGI-HD-8X8

8 HDMI inputs
8 HDMI outputs & 8 twisted pair outputs
HDMI 1.3 & HDCP compliant
front panel, Ethernet, RS232 & IR control
built-in IR switching
built-in front panel touchscreen

How do you integrate your older analog satellite boxes, cable receivers, DVD players, VCRs, and computers with your new HD television?

Magic? Miracle? **Intelix.**

The Intelix DIGI-SCAL-11X2 features the processing of three different devices—switching, scaling, and format conversion in a single device. It provides switching between eleven different audio-visual sources, scales the sources up to 720p or 1080p, and converts the signals to HDMI for seamless integration with your HD network.

intelix Residential Solutions

Audio/Video distribution throughout your home

DIGI-HD-IR2

1080p up to 150' via Cat 6 (100' Cat 5e)
720p/1080i up to 300' via Cat 6 (200' Cat 5e)
built-in ESD surge protection
HDMI & IR over two twisted pair cables
HDshāk inside

bi-directional RS232 and IR extension
individual channel color skew correction

HDshāk Inside

Intelix HDshāk technology delivers the highest level of EDID negotiation, ensuring proper source & destination handshaking over twisted pair every time.

Intelix offers the broadest line of audio/video over twisted pair extenders in the professional AV marketplace, including solutions for multiple formats of audio and video, VGA, DVI, HDMI, and USB. Intelix technology helps you manage your audio-visual signals--whether splitting, switching, converting, or extending--and ensures professional-grade performance from source to destination.

Design with Intelix and Design with Intelligence.
