

# intelix Digital Signage Solutions

## AVDA-8-F

- compatible with Intelix composite video, S-video, and analog audio baluns
- linkable up to 64 total outputs
- one RJ45 input to eight RJ45 outputs, plus linking output

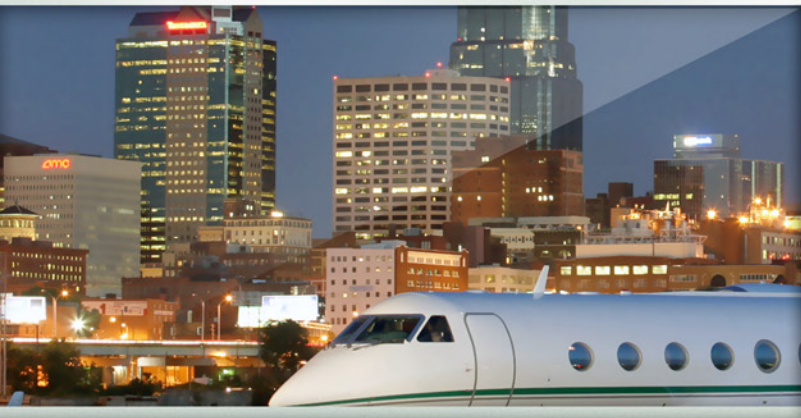

## DIGI-VGASD-T4 & DIGI-VGASD-T8

- 1600 x 1200 video up to 350 feet
- built-in skew correction
- send VGA, stereo audio, IR, & RS232 over a single Cat 5
- local monitor output

## DIGI-DVIT2R & DIGI-DVIT4R

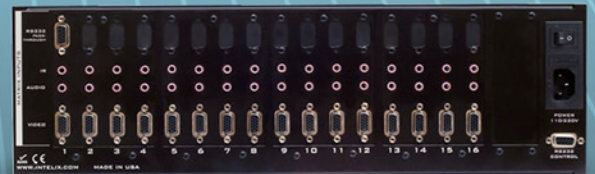

- distributes high-definition DVI-D signals up to 220 feet
- supports resolutions up to 1920 x 1080
- automatic EDID learning to ensure proper sync
- local monitor output

## The DIGI-VGASD-16X16

Tired of sifting through spec sheets and wiring multiple diverse components? Fed up with long, bulky cable runs? Simplify with Intelix DIGI-VGASD twisted pair matrices.

The DIGI-VGASD-16X16 combines a comprehensive audio/video switcher with Intelix's industry-leading twisted pair extenders. Plus, a separate internal control matrix provides independent bi-directional RS232 and IR switching and distribution -- switch audio, video, and control and transmit it all over a single twisted pair cable.

# intelix Digital Signage Solutions

## Signage sells...

and it doesn't need to be difficult or expensive. If you can build a PowerPoint™ presentation and plug in a monitor, you can build a professional digital signage network.

whether it's small

medium

or large

We help you get from A to B faster, easier, and with professional quality.

**Intelix offers the broadest line of audio/video over twisted pair extenders in the professional AV marketplace,** including solutions for multiple formats of audio and video, VGA, DVI, HDMI, and USB. Intelix technology helps you manage your audio-visual signals--whether splitting, switching, converting, or extending--and ensures professional-grade performance from source to destination.
