

SIMPLIFY SCHOOL AUDIO/VIDEO

UXGA transmission up to 350 feet

Local monitor support on send baluns

Dual outputs on receive baluns

Bi-directional RS232

Resolutions up to 1600x1200

Hi-fidelity audio

Built-in video equalization

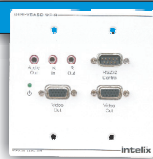

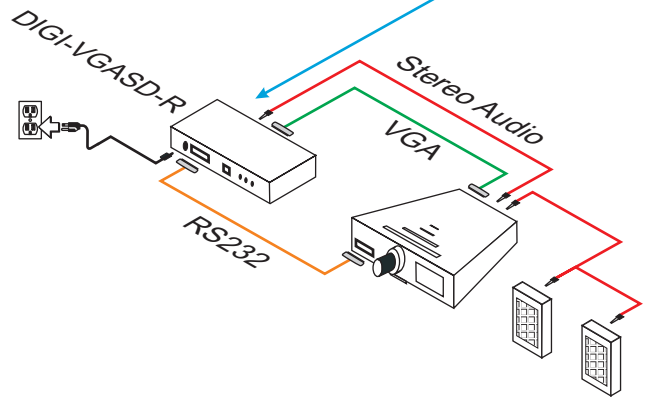

Send and receive models interchangeable

Compatible with standard Cat 5, Cat 5e, Cat 6, Cat 6e, & Cat 7

Linkable

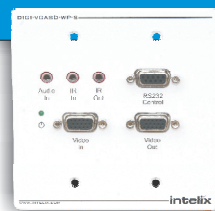

Forget running multiple cables--run all your audio, video, and control signals over a single inexpensive twisted pair cable. Intelix DIGI-VGASD products distribute UXGA, hi-fidelity stereo audio, and IR or RS232 over a single Cat 5 cable.

All send and receive baluns are fully compatible, allowing you to design the perfect Intelix solution for your application.

DIGI-VGASD-WP-R

Wallplate receive balun

DIGI-VGASD-WP-S

Wallplate send balun

DIGI-VGASD-R

Modular receive balun

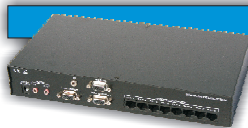

DIGI-VGASD-S

Modular send balun

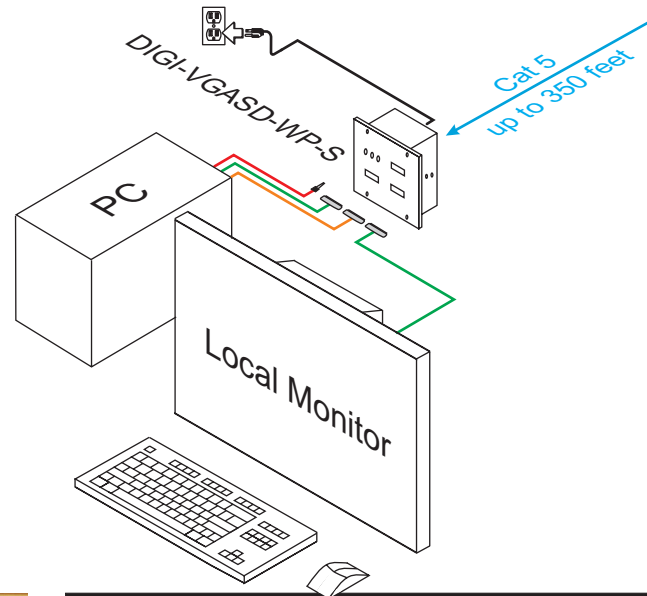

DIGI-VGASD-T4

1x4 send balun

DIGI-VGASD-T8

1x8 send balun

Ideal for classrooms and auditoriums, the Intelix DIGI-VGASD system routes audio, video and control from a local computer to remote powered speakers and a projector. Control from the local computer allows the projector to be powered on and off.

ROUTE VGA, STEREO AUDIO, IR & RS232 OVER A SINGLE TWISTED PAIR CABLE
